**Results: Three of 1,147 Test Positive for COVID-19;**  
**UPDATE: COVID-19 Vaccination Schedule for UOG, Homebound and Village-Based;**  
**COVID-19 Community Testing March 19 in Tiyan, Barrigada;**

**Results: Three New Cases of COVID-19**

**Three** new cases of COVID-19 were identified out of **1,147** tests performed on Tuesday, March 16. **Two (2)** cases reported recent travel history and were identified in quarantine. To date, there have been a total of **7,776** officially reported cases of COVID-19 with **134** deaths, **24** cases in active isolation, and **7,618** not in active isolation.

**TODAY'S CAR SCORE<sup>1</sup>**

**0.2**

<sup>1</sup>The COVID Area Risk (CAR) Score accounts for the incidence of new cases, how well current testing identifies these cases, and the rate of spread. The ideal long-term goal is to sustain a CAR Score of 2.5 or less, which has been shown to correlate with very low to zero COVID-related hospitalizations and deaths.
